Grilling on University property can be conducted without an open flame permit under the following conditions:

1. Grilling must be conducted at least 20 feet from buildings or vehicles.
2. Grilling must be conducted in grills that are manufactured for such purposes. If grills are custom made, they must be approved by the University Safety Officer or his/her designee.
3. Charcoal, starting fluid, or liquid propane (L.P.) and components must be used per manufacturer’s recommendation.
4. Only charcoal starting fluid, manufactured specifically for such purposes, shall be the only flammable/combustible liquid allowed to start charcoal.
5. L.P. containers are not allowed to be stored inside buildings.
6. Used charcoal must be disposed in non-combustible container and/or doused with water.
7. Large events where grilling is conducted (football events, festivals, etc.) must be inspected for safety by the University Safety Officer or his/her designee.
8. Tailgating festivities must comply with University policy 13.18(4).
